Biosynthesis and Degradation

The pathway for the conversion of dihydroagnosterol into cholesterol in rat liver.
By I. A. F. Tavares, K. A. Munday & D. C. Wilton 11

4,4′-Dimethylcholesta-7,9,14-trienol is an intermediate in the demethylation of dihydroagnosterol.
By I. A. F. Tavares, K. A. Munday & D. C. Wilton 17

Further studies on the activation of procollagenase, the latent precursor of bone collagenase. Effects of lysosomal cathepsin B, plasmin and kallikrein, and spontaneous activation.
By Y. Eeckhout & G. Vaes 21

Decline in ribonucleic acid and protein synthesis with loss of viability during the early hours of imbibition of rye (*Secale cereale* L.) embryos.
By S. Sen & D. J. Osborne 33

Enzymes metabolizing Δ^1-pyrroline-5-carboxylate in rat tissues.
By A. Herzfeld, V. A. Mezl & W. E. Knox 95

Metabolism of arginine in lactating rat mammary gland.
By V. A. Mezl & W. E. Knox 105

Faster synthesis and slower degradation of liver protein during developmental growth.
By R. D. Conde & O. A. Scornik 115

Subcellular Structures

The synthesis of hippurate from benzoate and glycine by rat liver mitochondria. Submitochondrial localization and kinetics.
By S. J. Gatley & H. S. A. Sherratt 39

PAGE

Inhibition of carbon dioxide fixation by lead acetate in rat liver mitochondria.
By J. M. Amatruda, A. J. Staton & L. A. Kiesow 75

Cellular Interactions and Control Processes

Partial purification, properties and regulation of inosine 5′-phosphate dehydrogenase in normal and malignant rat tissues.
By R. C. Jackson, H. P. Morris & G. Weber 1

Plasma amino acid concentrations in pregnant rats and in 21-day foetuses.
By A. Palou, L. Arola & M. Alemany 49

Decreased liver cytochrome *P*-450 in rats caused by norethindrone or ethynyloestradiol.
By I. N. H. White & U. Muller-Eberhard 57

The role of tubular reabsorption in the renal excretion of bile acids.
By S. Barnes, J. L. Gollan & B. H. Billing 65

Role of pyridoxal phosphate in mammalian polyamine biosynthesis. Lack of requirement for mammalian *S*-adenosylmethionine decarboxylase activity.
By A. E. Pegg 81

Polyamines and their biosynthetic enzymes in Ehrlich ascites-carcinoma cells. Modification of tumour polyamine pattern by diamines.
By A. Kallio, H. Pösö, S. K. Guha & J. Jänne 89

Effect of citrate on the activities of 6-phosphofructokinase from nervous and muscle tissues from different animals and its relationship to the regulation of glycolysis.
By E. A. Newsholme, P. H. Sugden & T. Williams 123

RAPID PAPERS

PAGE

Biosynthesis and Degradation

Formation of vitamin A in a freshwater fish. Isolation of retinoic acid.
By A. B. Barua & U. C. Goswami 133

Sulpholipid formation in rat submandibular gland.
By E. T. Pritchard 141

PAGE

Bioenergetics

Permeability of the mitochondrial membrane to bicarbonate ions.
By M. J. Selwyn & H. A. Walker 137

Contents of Volume 166, No. 2

FULL PAPERS

PAGE

Biosynthesis and Degradation

Specific protein synthesis in isolated epithelium of guinea-pig seminal vesicle. General features.
By C. M. Veneziale 155

Specific protein synthesis in isolated epithelium of guinea-pig seminal vesicle. Effects of castration and androgen replacement.
By C. M. Veneziale, J. M. Burns, J. C. Lewis & K. A. Büchi 167

Collagen synthesis in the muscle of developing chick embryos.
By M. Nwagwu & S. A. Reid 199

Bacterial catabolism of threonine. Threonine degradation initiated by L-threonine acetaldehyde-lyase (aldolase) in species of *Pseudomonas*.
By S. C. Bell & J. M. Turner 209

The degradation and turnover of fucosylated glycoproteins in the plasma membrane of a neuroblastoma-cell line.
By J. E. Hudson & T. C. Johnson 217

Bioenergetics

The manipulation of cellular cytochrome and lipid composition in a haem mutant of *Saccharomyces cerevisiae*.
By A. M. Astin, J. M. Haslam & R. A. Woods 275

The effects of altered membrane sterol composition on oxidative phosphorylation in a haem mutant of *Saccharomyces cerevisiae*.
By A. M. Astin & J. M. Haslam 287

Subcellular Structures

Subcellular distribution of superoxide dismutases in human neutrophils. Influence of myeloperoxidase on the measurement of superoxide dismutase activity.
By R. F. Rest & J. K. Spitznagel 145

PAGE

Cellular Interactions and Control Processes

Preferential utilization *in vitro* of iron bound to diferric transferrin by rabbit reticulocytes.
By E. J. Zapolski & J. V. Princiotto 175

Potassium ion-activated hydrolysis of *p*-nitrophenyl phosphate in pancreatic islet-cell membranes.
By Å. Lernmark, A. Parman & I.-B. Täljedal 181

Initiation and elongation of polyribonucleotide chains on rat ventral-prostate chromatin transcribed by homologous ribonucleic acid polymerase B.
By P. Thomas, P. Davies & K. Griffiths 189

Induction of peroxidase in corpora lutea of rat ovary by lutropin.
By P. Agrawal & M. M. Laloraya 205

Effect of glucagon on metabolite compartmentation in isolated rat liver cells during gluconeogenesis from lactate.
By E. A. Siess, D. G. Brocks, H. K. Lattke & O. H. Wieland 225

Biochemical study of KB-cell receptor for adenovirus.
By B. Hennache & P. Boulanger 237

Precocious development of uridine diphosphate glucuronosyltransferase activity during organ culture of foetal rat liver in the presence of glucocorticoids.
By G. J. Wishart, M. A. Goheer, J. E. A. Leakey & G. J. Dutton 249

Membrane cholesterol and cell fusion of hen and guinea-pig erythrocytes.
By M. J. Hope, K. R. Bruckdorfer, C. A. Hart & J. A. Lucy 255

Induction of human choriogonadotropin in HeLa-cell cultures by aliphatic monocarboxylates and inhibitors of deoxyribonucleic acid synthesis.
By N. K. Ghosh, A. Rukenstein & R. P. Cox 265

RAPID PAPER

PAGE

Cellular Interactions and Control Processes

Effect of endotoxin on tryptophan pyrrolase and δ-aminolaevulinate synthase. Evidence for an endogenous regulatory haem fraction in rat liver.
By D. M. Bissell & L. E. Hammaker 301

Contents of Volume 166, No. 3

FULL PAPERS

PAGE

Biosynthesis and Degradation

Synthesis of haem cytochrome *c* prosthetic group from δ-aminolaevulinate by the cell sap from rat liver.
By C. Sáez de Córdova, R. Cohén & N. F. González-Cadavid 305

Protein synthesis during right-ventricular hypertrophy after pulmonary-artery stenosis in the dog.
By A. W. Everett, R. R. Taylor & M. P. Sparrow 315

Changes in pulmonary surfactant and phosphatidylcholine metabolism in rats exposed to chrysotile asbestos dust.
By T. D. Tetley, R. J. Richards & J. L. Harwood 323

Studies on the metabolism of oestrone sulphate. Comparative perfusions of oestrone and oestrone sulphate through isolated rat livers.
By M. Höller, W. Grochtmann, M. Napp & H. Breuer 363

The catabolism of intravenously injected heparan *N*-[^{35}S]sulphate in the rat.
By M. A. Perry, G. M. Powell, F. S. Wusteman & C. G. Curtis 373

Sialyltransferase activity in regenerating rat liver.
By F. Serafini-Cessi 381

The association of the sulphogalactosylglycerolipid of rat brain with myelination.
By J. Pieringer, G. Subba Rao, P. Mandel & R. A. Pieringer 421

The biosynthesis of sulphogalactosyldiacylglycerol of rat brain *in vitro*.
By G. Subba Rao, L. N. Norcia, J. Pieringer & R. A. Pieringer 429

PAGE

Synthesis of procollagen by matrix-free cells from embryonic-chick arteries.
By J. D. Schofield, R. Harwood & D. S. Jackson 437

Biosynthesis of acetyl-coenzyme A in the electric organ of *Torpedo marmorata* in relation to acetylcholine metabolism.
By M.-F. Diebler & Y. Morot-Gaudry 447

Growth of liver accompanied by an increased binding of aminoacyl-transfer ribonucleic acids.
By D. M. Nicholls, J. Carey & W. Sendecki 463

Bioenergetics

Iron–sulphur centres in mitochondria from *Arum maculatum* spadix with very high rates of cyanide-resistant respiration.
By R. Cammack & J. M. Palmer 347

Identification of a non-magnetic iron centre and an iron-storage or -transport material in blue–green algal membranes by Mössbauer spectroscopy.
By E. H. Evans, N. G. Carr, J. D. Rush & C. E. Johnson 547

The effects of altered sterol composition on the mitochondrial adenine nucleotide transporter of *Saccharomyces cerevisiae*.
By J. M. Haslam, A. M. Astin & W. W. Nichols 559

The effects of unsaturated fatty acid depletion on the proton permeability and energetic functions of yeast mitochondria.
By J. M. Haslam & N. F. Fellows 565

Transport and oxidation of choline by liver mitochondria.
By D. D. Tyler 571

PAGE

Alterations in nicotinamide and adenine nucleotide systems during mixed-function oxidation of *p*-nitroanisole in perfused livers from normal and phenobarbital-treated rats.
By F. C. Kauffman, R. K. Evans & R. G. Thurman 583

Dibutylchloromethyltin chloride, a covalent inhibitor of the adenosine triphosphate synthase complex.
By K. Cain, M. D. Partis & D. E. Griffiths 593

Subcellular Structures

Characteristics of sarcoplasmic reticulum from slowly glycolysing and from rapidly glycolysing pig skeletal muscle *post mortem*.
By D. B. McIntosh, M. C. Berman & J. E. Kench 387

Studies on rat liver plasma membrane. Altered protein and phospholipid metabolism after injection of D-galactosamine.
By W. Bachmann, E. Harms, B. Hassels, H. Henninger & W. Reutter 455

Lipid–protein globules of avian egg yolk. Isolation and properties of globules stable in concentrated sodium chloride solution.
By D. V. Vadehra, J. M. Bain & R. W. Burley 619

Cellular Interactions and Control Processes

Effect of vitamin A nutritional status on the ribonucleic acids of liver, intestinal mucosa and testes of rats.
By M. Jayaram & J. Ganguly 339

Further studies on the effect of the collagen triple-helix formation on the hydroxylation of lysine and the glycosylations of hydroxylysine in chick-embryo tendon and cartilage cells.
By A. Oikarinen, H. Anttinen & K. I. Kivirikko 357

Structural requirements for the inhibitory action of 12,13-epoxytrichothecenes on protein synthesis in eukaryotes.
By C. J. Carter & M. Cannon 399

A rapid direct assay for the determination of the separate activities of the three arylsulphatases of *Aspergillus oryzae*.
By G. R. J. Burns & C. H. Wynn 411

Differential repression of arylsulphatase synthesis in *Aspergillus oryzae*.
By G. R. J. Burns & C. H. Wynn 415

PAGE

Effects of noradrenaline on the activation and the stability of brain adenylate cyclase.
By S. Brydon-Golz, H. Ohanian & A. Bennun 473

Cortisol induction of pulmonary maturation in the rabbit foetus. Its effects on enzymes related to phospholipid biosynthesis and on marker enzymes for subcellular organelles.
By F. Possmayer, G. Duwe, R. Metcalfe, P. J. Stewart-DeHaan, C. Wong, J. Las Heras & P. G. R. Harding 485

Calcium ion-dependent diacylglycerol accumulation in erythrocytes is associated with microvesiculation but not with efflux of potassium ions.
By D. Allan & R. H. Michell 495

Alterations in regulation of insulin biosynthesis in pregnancy and starvation studied in isolated rat islets of Langerhans.
By A. J. Bone & S. L. Howell 501

Metabolism and transport of glutamine and glucose in vascularly perfused small intestine of the rat.
By P. J. Hanson & D. S. Parsons 509

Tissue distribution of *S*-adenosylmethionine and *S*-adenosylhomocysteine in the rat. Effect of age, sex and methionine administration on the metabolism of *S*-adenosylmethionine, *S*-adenosylhomocysteine and polyamines.
By T. O. Eloranta 521

The effect of calcium on lead absorption in rats.
By P. A. Meredith, M. R. Moore & A. Goldberg 531

Origins of blood acetate in the rat.
By B. M. Buckley & D. H. Williamson 539

Effect of buffer composition on binding of adenosine 3′:5′-cyclic monophosphate by bovine adrenal extracts.
By J. Linkola, F. Fyhrquist, T. H. Weber & L. Puutula 553

Influence of cations at the plasma membrane in controlling polysaccharide secretion from sycamore suspension cells.
By M. R. Morris & D. H. Northcote 603

Development

Characteristics and postnatal development of the acid lipase activity of the rat small intestine.
By P. M. Coates, S. A. Brown, J. Jumawan & O. Koldovský 331

RAPID PAPERS

PAGE

Cellular Interactions and Control Processes

Evidence that fatty acid synthesis in the interscapular brown adipose tissue of cold-adapted rats is increased *in vivo* by insulin by mechanisms involving paralleled activation of pyruvate dehydrogenase and acetyl-coenzyme A carboxylase.
By J. G. McCormack & R. M. Denton 627

The effect of 1,4-diaminobutanone on the stability of ornithine decarboxylase from *Aspergillus nidulans*.
By L. Stevens & I. M. McKinnon 635

The effects of acute ethanol feeding and of chronic benfluorex administration on the activities of some enzymes of glycerolipid synthesis in rat liver and adipose tissue.
By P. H. Pritchard, M. Bowley, S. L. Burditt, J. Cooling, H. P. Glenny, N. Lawson, R. G. Sturton & D. N. Brindley 639

PAGE

Hexokinase and glucose–phosphoenolpyruvate phosphotransferase synthesis in *Klebsiella aerogenes* strains growing in continuous culture.
By I. S. Carter & A. C. R. Dean 643

Oestrogen induction of riboflavin-binding protein in immature chicks. Modulation by thyroid status.
By U. S. Murthy & P. R. Adiga 647

Metabolism in Whole Organisms

The effects of inhibition of fatty acid oxidation in suckling newborn rats.
By J.-P. Pégorier, P. Ferré & J. Girard 631
